Minimization of changeover times – carbide punches!

- ⇒ optimal price performance ratio
- ⇒ lowering of down and changeover times
- ⇒ minimal abrasion at punch
- ⇒ stable product quality over the entire process away

All carbide punches on demand with PVD-/CVD-coating.

That offers the advantage to you -with optimal operational condition- of one more than quadruple increased service life.

- needles
- hexagon punches
- extrusion punches
- 6-lobe punches
- special forms by request

Test it!
